

Curious About College?

I may be a little biased, but I think college is one of the most rewarding experiences you can have. That's why we designed our Early Scholars Program - to give high school students the chance to "try it on" through a select group of discounted college courses.

In today's fast-paced world, gaining early experience is more important than ever. I welcome you to use this opportunity to spend time on our campus, learn from our fantastic professors, and really get the flavor of what college can be for you.

I look forward to meeting you here on campus!
